

An X-Ray at the Dentist!

I will go to Columbia Dentistry for Children.

I will follow directions. I will stay calm and be safe. I will tell someone if I need or want anything.

First, I check in at the front desk.

I have to tell them my name.

Then, I will go back to a room to get pictures of my teeth.

I will sit in a special chair that moves and leans back.

Next, the assistant will put a lead apron on my lap.

I can tell them if I need a break.

An X-Ray at the Dentist!

After I have the apron on, the assistant will place an x-ray sensor next to my teeth in my mouth.

The assistant will place the x-ray camera next to my cheek.

I will have to bite my teeth together so that the assistant can get a picture!

The Assistant will leave the room to push the x-ray button. The camera will make a buzz sound.

When the x-ray is complete, I can go sit in the exam room.

When I am finished, I get to get a toy from the machine!

Then, I check out at the front desk.

I am all done!
