Tips for a Successful Visit

Preparing for the Appointment:

- Schedule a time with staff to bring your child in a few days before to allow them to explore and meet everyone
- Read the story to your child several days prior to your appointment *(These can be found on our website and Facebook page)*
- Review a visual schedule of the appointment with your child the day before and the day of your appointment
- Bring calming items and favorite rewards with you to the appointment
- Notify staff of any common triggers for negative behaviors as well as your child’s method(s) of communication
- Complete all online forms and paperwork prior to arrival

Throughout the Appointment:

- Give staff a warning if you see any signs of anxiety or escalating behavior
- Allow your child to use distraction items (tablet, music, etc.) as needed
- Aide in the communication between your child and the staff

Post Appointment Reminders:

- If your child received fluoride, do not eat, drink, or brush teeth until the time designated by your dentist
- Create a consistent brushing routine in the mornings and evenings
- Use visual supports to help teach brushing routine
